

Grade 2 Patterning and Algebra

Ontario Educational Resources Bank (OERB) Activities

Patterns and Relationships	
Activity	Description
<p style="text-align: center;">Counting Patterns on a Hundreds Chart</p>  <p style="text-align: center;">Resource ID: ELO1140400</p>	<p>Practise identifying growing patterns from various starting points by skip counting on a hundreds chart.</p>
<p style="text-align: center;">Identification and Creating Patterns</p>  <p style="text-align: center;">Resource ID: ELO1245910</p>	<p>Build understanding that a pattern results from making a repeated change to an attribute (colour, orientation) by reviewing a brief tutorial.</p>
<p style="text-align: center;">Let's Repeat Patterns</p>  <p style="text-align: center;">Resource ID: ELO1275420</p>	<p>Practise extending patterns when given the pattern core (smallest part that repeats) by selecting the next object in the sequence. Then create patterns using two changing attributes.</p>
<p style="text-align: center;">Math Jeopardy</p>  <p style="text-align: center;">Resource ID: ELO1089200</p>	<p>Practise adding and subtracting whole numbers, completing number patterns and answering probability questions by completing jeopardy questions.</p>
