

“Would You Like To Try That On?”

- *Micha and Pierre work at a clothing store at the [insert local mall].*
- *They are each paid a percentage commission on the sales that they make.*
- *Pierre earns a weekly base salary of \$100 per week, while Micha, because she is also responsible for managing the sales staff, earns a weekly base salary of \$350.*

1. Complete the following table to determine their gross income for last week. [A]

Employee	Weekly Sales (\$)	5% Commission on First \$1000 in Weekly Sales	7% Commission on Next \$1000 in Weekly Sales	11% Commission on Weekly Sales over \$2000	Weekly Base Salary (\$)	Total Weekly Earnings (\$)
Pierre	\$3257					
Micha	\$1813					

2. Last week Pierre worked 44 hours and Micha worked 50 hours. Calculate their earnings in terms of \$/hour. [PS]

Pierre: _____

Micha: _____
