How Far Is It?

Note: You will need a map of Canada. If you do not have an Atlas available to you, you can print a map of Canada from www.atlas.gc.ca

Instructions:

- draw 2 cards from the pile
- use your map to estimate the distance “as the crow flies” between the two cities (in kilometres)
- record the cities and your estimate on the score card
- have your partner check the actual distance on the chart provided
- determine your points:
 - 1 point if you are within 400 km
 - 2 points if you are within 300 km
 - 3 points if you are within 200 km
 - 4 points if you are within 100 km
 - 5 points if you are within 50 km
- return your cards to the pile and shuffle them (if you get the same two cities, draw again)
